

# Creative Healing for All Animals

## Pricing, Packages, and Policy

### Energy Healing Approach

The approach of Victoria Stigliano-Dzuban and Creative Healing for All Animals is intended to be a complement to traditional veterinary care and is not a stand alone treatment in the care for your animal, however, the techniques used in each session will support your animal in their healing or wellness plan. It is a collaborative process using basic coaching techniques and different energy modalities aimed at providing a wholistic and compassionate environment for all involved. This approach is contingent upon the cooperation of the guardians of the animal.

### Basic Animal Readings w/ Energy Assessment: \$77

This is recommended for all clients and services in order to start with a solid foundation and the most efficient way to assess the animal's needs. If you wish to add any additional services after the initial read, the reading price drops to \$22 and the balance will be passed along and become part of the fee of your chosen service.

### **Late /Cancelled /Missed Appointments**

To maximize the effectiveness of the healing services, animal guardians should make participation in the animal's welfare a high priority. Every effort should be made available to make each appointment and sessions should not be cancelled except in the case of an emergency.

If you need to reschedule, you MUST provide at least 24 hours notice. Rescheduled appointments are contingent upon availability but every attempt will be made to accommodate you and your animal. Failure to comply will result in the loss of the appointment. My time, as well as yours, is valuable and must not be treated casually. Rescheduled appointments will be based on my availability as well as your convenience. I appreciate circumstances change, however you need to appreciate that I have other clients and my schedule is quite full.

**To be noted:** I fully understand that we cannot always control the “moods” of our pets, however, in purchasing a healing package for your pet, please understand that it can only work if you, the animal guardian, and your animal show up. Part of the healing package is to address the issues you may be experiencing with your animal on a regular basis. Should a situation arise where the circumstances of the session are not conducive to your animal’s cooperation, you and I will discuss what options might be available. This may include such things as changing the time of day for future sessions, leaving the animal with me for the in-person session and return at an allocated time to collect him/her again (may not be applicable for large animals as a handler must be present), or switch to a distance session. I have found that quite often, the energy of the guardian can impact quite heavily on how the session with the animal progresses, so this may need to be taken into consideration when we work together to help support the animal’s healing process. (For in-person sessions, switching to distance sessions after purchasing the in-person plan a price adjustment to the package purchased will be discussed.)

### **Refund Policy**

There are NO refunds under any circumstances. I am here to provide you with as much support as you and your animal’s needs. I promise to give you my absolute best during your animal’s sessions and in return, the expectation is for integrity and respect for my professionalism and my business.

### **Confidentiality**

Confidentiality is respected at ALL times, no information will be communicated directly or indirectly to a third party at any time without the client’s informed and written permission.

### **Referral Program**

We’re offering a free 30-minute Introductory Session to any new referrals you send my way. As a token of my gratitude, your referral will receive special pricing exclusively for potential referral clients. If they become a paying client, you will receive either a Free Animal Reading or a Free Chakra Clearing & Balance for your animal as a token of my appreciation.
